

**Mandatory Language for Monitoring and Reporting Violation  
Failure to Submit a Disinfectant Level Quarterly Operating Report (DLQOR)  
MONITORING, ROUTINE (DBP), MAJOR/CHLORINE**

The YANTIS WATER DEPARTMENT water system PWS ID 2500010 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination.

This/These violation(s) occurred in the monitoring period(s) **SECOND QUARTER 04/01/2020 - 06/30/2020.**

We are taking the following actions to address this issue:

**The Yantis Water Department monitored the disinfection residuals within the distribution system as required by TCEQ during the above monitoring period. The disinfection residual levels monitored were in compliance with state regulations, indicating that water is and was safe from microbial contamination. Yantis Water Department submitted the report to TCEQ as required, but due to causes unknown to the Yantis Water Department, the report failed to reach the intended destination. All future mailed reports will only be sent to TCEQ with receipts and delivery confirmations.**

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact YANTIS WATER DEPARTMENT at 903-383-2610.
